Our pedigree for high quality composite doors is unparalleled and we've now raised the bar even further – welcome to Hurst nxt-gen, the latest in composite door technology.

It's called Hurst nxt-gen for good reason, as it combines

symmetry and balance with enhanced security and weather proofing features to give you and your home a beautifully sleek and exceptionally secure entrance door. It's our next generation of composite doors...welcome to the future.

Welcome to
the future...

Introducing Hurst next-gen

WHY CHOOSE A HURST NXT-GEN DOOR?

Unparalleled Security

Thanks to its rigid polymer subframe, high density CFC-free polyurethane foam core, high impact resistant GRP skin and high quality multi-point locks.

Exceptional Durability

High impact resistant glass reinforced polyester (GRP) skin will maintain its pristine appearance in the face of everyday knocks and scratches and beyond.

Low Maintenance

Everything about our GRP composite doors are designed to be easy to maintain, including the triple glazed options insulated glass unit which encapsulates the delicate decorative glazing between two panes of clear glass, protecting it and making it easy to keep clean.

Stunning Aesthetics

Symmetry and balance are very much key elements as we want you to look at your door and feel it is perfect in every way. The woodgrain finish was developed from oak tree grain, creating a beautifully authentic appearance.

Flush Fitted Beading

Superb Sound Insulation

Weighted noise reduction of 31 decibels. It means you can be sure your new door will keep outside noise to a minimum, helping to make your home the haven you want it to be.

Excellent Weatherproofing

Water resistant polymer composite rails that protect its core. This means it won't suffer from water absorption which can lead to skin de-lamination and cause functional problems that lesser products have. Your door will keep the weather at bay and stay looking good for longer.

nxt-gen
Half Moon 3

Enclosed Mini-blinds

Perfect when added privacy is essential

An enclosed mini-blind is the perfect solution for controlling light and privacy in your home.

Mini-blinds can be handed left or right and have a simple control mechanism to be raised or tilted with one hand. This system uses a magnetic tab rather than a traditional cord, so is completely safe for use around children.

The mini-blind is enclosed within two panes of glass in the frame so never require painting and are protected from damage and dust. They are a stylish finishing touch to any external door.

Bring colour into your life...

Standard Colours

Standard Plus Colours

Premium Colours

*Available at an additional cost. | Colours shown should be used for guidance only as the limitations in the printing process, may mean that colours vary from those illustrated.

Make a statement

Further personalise your door with our extensive door colour and furniture options...

A whole range of door knockers and numerals are available in a wide variety of styles and colour options. Spyholes, door guards and safety chains are also available.

Weatherbars

A range of weatherbars are available in a variety of colours to complement your chosen door.

Pedigree

Hurst nxt-gen is the latest in composite door technology.

OFFICIAL POLICE SECURITY INITIATIVE

Our Composite Door set is available to meet the requirements of the Secured By Design Licence, the official Police initiative backed by the Home Office Crime Prevention Unit. The impeccable security credentials are thanks to a rigid polymer sub-frame, high density insulated core and high impact resistant GRP skin.

DURABILITY & STYLE

A door with pedigree, offering strength, high impact resistance and stability – all backed by our comprehensive guarantee!

Symmetry and balance are very much key elements as we want you to look at your door and feel it is perfect in every way. The woodgrain finish was developed from oak tree grain, creating a beautifully authentic appearance.

WEATHER & SECURITY PERFORMANCE

Certified accreditation for performance against extreme weather conditions and physical attack methods used by intruders. Our composite doors are made from impact resistant GRP with a rigid polymer subframe – proven to PAS24:2016 Security Standard, a prerequisite for achieving ‘Secured by Design’ endorsement.

Low maintenance

The key to keeping your new nxt-gen door looking great.

KEEP YOUR DOOR LOOKING GREAT FOR LONGER

Everything about your nxt-gen composite door has been designed to be easy to maintain. There will be no more fiddly dusting around the decorative glass leading and no more rubbing down.

Our doors also give you;

- Stunning Aesthetics
- Unparalleled Security
- Exceptional Durability
- Excellent Weatherproofing
- Superb Sound Insulation

To prolong the life of the surface, a small amount of care and attention is needed.

How often will depend on where you live. In a coastal or heavily industrialised area or near a main road, cleaning may need to be more often.

We recommend that you only use warm soapy water (washing up liquid is suitable) with a lint free cloth and wipe dry with a soft clean cloth.

PLEASE DO NOT...

- Use abrasive cleaners or scouring pads
- Use pressure washers or steam cleaners
- Apply any type of bleach or solvent
- Apply any adhesives of any type or tack
- Have any contact with any sharp objects

Simply
clean with
warm soapy
water
