OUR HERITAGE

FOUNDED IN 1958

THE FINE ART OF COMPOSITE DOORS

“FOR OVER 35 YEARS, IG DOORS, THE COMPANY BEHIND TRUEDOR, HAS MANUFACTURED THE FINEST QUALITY DOORS USING TRIED AND TRUSTED TECHNIQUES THAT ARE PASSED ON BY EXPERIENCED, SKILLED PROFESSIONALS”

THE FINE ART OF COMPOSITE DOORS

Truedor is a range of strong, long lasting and affordable GRP composite doors. We choose to work with GRP composite material because it is robust, it won't warp and delivers the same aesthetic appeal as timber but with none of the disadvantages. Why use anything else? Across all our collections, our quality front door styles can be coloured and finished to your personal specification.

GEORGE CLARKE
BRAND AMBASSADOR FOR
TRUEDOR COMPOSITE DOORS

Our fully trained staff take great pride in every door-set produced in our factory and are trusted to ensure that nothing leaves the premises without meeting strict quality criteria and undergoing thorough testing.

IG was founded in South Wales in 1958 and Composite Door production began in 1979. Between 1979 and 2018 we manufactured and supplied an extensive range of high performance external door-sets from our manufacturing facility in Cwmbran, before moving to a brand new high-tech facility in Blackwood.

Ongoing investment in our manufacturing facility, including the purchase of some of the most advanced production equipment in the UK will continue to spearhead our growth.

We continue to be industry leaders by providing a flexible and cost-effective product range backed by our exemplary service record and years of experience.

We have the confidence to offer all our standard GRP composite doors with a ten year manufacturers guarantee... but when you have been in the business for as long as we have, our products come with far more... they are backed by our enviable reputation.

TRULY FRIENDLY TO THE ENVIRONMENT

IG Doors, the company behind Truedor, recognises its important role in conserving the environment for future generations and aims to pursue a sound environmental strategy through the implementation of its environmental policy and by setting annual environmental objectives and targets.

The responsibility for implementing the environmental policy lies with the management team, assisted by employees at all levels.

The Company encourages staff training and development to ensure that commitment to the policy can be fulfilled. The main aspects of the Company's strive for environmental excellence include:

- the prevention of pollution
- a reduction in energy consumption
- a reduction in waste generation
- an increase in the use of sustainable materials

IG Doors Ltd achieved certificate BS EN ISO 14001.

GEORGE CLARKE INTRODUCES THE

Truedor

TRADITIONAL RANGE

GEORGE CLARKE
BRAND AMBASSADOR FOR
TRUEDOR COMPOSITE DOORS

TRADITIONAL
RANGE

Whether you live on a Victorian terrace or a modern development, your home is as individual as you are and deserves a front door that makes a unique statement about you. By choosing a modern, composite door you can benefit from a vast range of styles, colours, glass options and handles, and what's more, every door is made to measure.

There is something of the traditionalist in all of us, as we celebrate the strengths of British culture such as art, design and manufacturing in the furnishing of our homes. Crafted in Britain, all our Traditional doors are finished to perfection.

From the style and colour to the choice of glass and handles, you can select from an impressive array of options to create your own bespoke door.

Knowing where to start in choosing the right door for you can be a daunting prospect, but with Truedor, it's easy.

The Truedor online door designer is a step-by-step guide to designing your bespoke Truedor. First choose a door style, then play with different glazing and colour options until the online designer even enables you to view your preferred door on an image of your own home.

The different door styles in the Traditional range marry timeless elegance and classic design. From the beautifully understated, four panel Cézanne to the striking and robust Rembrandt, these versatile doors suit a wide variety of homes.

GLAZING IS A KEY FEATURE OF ANY FRONT DOOR, AND THE TRUEDOR RANGE OF TRADITIONAL DOORS IS NO EXCEPTION. IT HAS A VAST ARRAY OF GLAZING OPTIONS AVAILABLE FOR YOU TO CHOOSE FROM.

With four styles, a great number of glazing options and colour choices, the four panel Cézanne makes a smart addition to any home.

HARMONY COLOURS

GEORGE CLARKE INTRODUCES THE

COTTAGE RANGE

GEORGE CLARKE
BRAND AMBASSADOR FOR
TRUEDOR COMPOSITE DOORS

COTTAGE
RANGE

“
Character properties are perennially popular among home buyers who are looking for a piece of history. These period properties usually offer original features which their owners seek to preserve. Even when looking to renovate or improve these homes, attention to detail is key, so modern fixtures with heritage overtones are the ideal solution.
”

Country cottages are renowned for oozing charm whilst affording a warm welcome. From their flagstone floors and cast-iron fireplaces through to their tightly thatched roofs and sturdy garden gates, the typical British cottage is a byword for expert craftsmanship.

Great care must be taken in restoring and maintaining cottages to retain their unique nature, with owners becoming the custodians of their past and future. Salvage yards can be a gold mine for reclaimed fittings and furnishings such as Victorian radiators and aged railway sleepers.

But finding entire sets of matching windows or original front doors of any quality is practically impossible.

With the Cottage range, Truedor makes it possible to put a totally modern door on to any character property in both urban and rural environments.

The Turner door is available in several different styles; choose from our wide variety of colours, and wood stains along with a great choice of glass options.

It is finished with a classic 'tongue and groove' appearance, reminiscent of a sturdy cottage door.

The Cottage range brings a sense of the countryside to any home and with a solid wood-look finish, delivers substance without losing any of the style.

A LITTLE PIECE
OF THE
COUNTRYSIDE
IN ANY
SETTING.

TURNER

Available in a variety of styles, with a great choice of glazing options, the Turner has a 'tongue and groove' effect which is reminiscent of a farmhouse door. It brings a distinct rural feel to any property.

GEORGE CLARKE INTRODUCES THE

CONTEMPORARY RANGE

GEORGE CLARKE
BRAND AMBASSADOR FOR
TRUEDOR COMPOSITE DOORS

CONTEMPORARY
RANGE

There has been a significant number of new homes built over the last 50 years. Often, these more modern homes need doors and windows that are in keeping with the surrounding architecture.

There is an increasing number of exciting, contemporary doors available to homeowners looking to give their house a clean, fresh look. These ultra-new door styles provide instant sophistication to a home.

The Contemporary Range for a truly modern door. Your front door provides the best security for your castle. It protects you from the extremes of British weather and should offer true durability.

Choosing a new front door is a decision you may only make once for in your home and you need to make it with confidence.

Every door in the Truedor range is made from GRP glass-reinforced polymer. This material is strong, long-lasting and affordable.

Aside from those benefits, there are many practical reasons why we choose to work with it. GRP composite won't warp or split and can combine traditional wood aesthetics with low maintenance technology. With none of the disadvantages of timber but the same aesthetic appeal, why would we use anything else?

Across the exquisite Mondrian and Goya collections in the Truedor Contemporary range, there are many smart door styles to choose from.

Side and top panels surrounding your door frame can compliment a contemporary door style and allow more light into the hallway. If a Contemporary door style feels like a radical departure for you, try the Truedor online door designer to test out the Mondrian and Goya in different colours. Add one of the many different glass options that are available to see how, with your own personal touch, a Contemporary door can suit your home.

THESE STRIKINGLY
MODERN DOORS
MAKE THE RIGHT
FIRST IMPRESSION,
EVERY TIME.

MONDRIAN

KANDINSKY

GOYA

The stylish Kandinsky door provides instant sophistication to any home. This contemporary door is available with left, right or centred contemporary glazed panels, or can be ordered as a solid door for complete privacy. Which one will you choose?

GEORGE CLARKE'S TOP FIVE TIPS FOR ENHANCING KERB APPEAL

Your front door is the face of your home - it's the first thing people see, so don't follow the crowd, design your own and really go to town. With your front door you have more freedom to express yourself, perhaps picking a colour that you wouldn't normally choose for your interior walls. Changing the front door is a quick win but a real game changer in terms of how people perceive you and your home.

GEORGE CLARKE

Passionate about encouraging people to be creative with their homes, architect and property expert, George Clarke, product ambassador for Truedor, has put together his top five tips for enhancing kerb appeal.

1. CREATIVE COLOUR

If you're feeling adventurous, go for strong, bright colours for your front door but choose a shade that complements your own personal style and the rest of your home. If you're not feeling brave, black is always a safe bet, or opt for darker shades of blue, plum and green that will still make a design statement.

2. CLEAN LINES

Symmetry at the front of a house is always a good idea. Consider positioning plants so that there's an equal number on each side of the entrance for impact and any outdoor lighting will generally always look better in pairs.

3. FLOWER POWER

Think about stylish hanging baskets, planters and window boxes. Flowers, shrubs and greenery can really lift the entrance to a home and complement the colour and style of the front door. Make sure you water and feed them regularly to keep them in tip-top condition.

4. KEEP IT CLUTTER FREE

Keep doors, pathways, steps and open porches free from leaves, dust, dirt and other debris and if you've got front door mats make sure it's kept clean and looks appealing.

5. THE DETAILS MAKE THE DIFFERENCE

It's always worth investing in good quality door accessories such as letterboxes, doorknobs and knockers, and try to make sure you choose door furniture that is in keeping with the style and age of your property.

“OUTDOOR LIVING AS A CONCEPT HAS BECOME INCREDIBLY ASPIRATIONAL IN RECENT YEARS, SO WHY NOT MAKE YOUR BACK DOOR A PART OF IT?”

GC

GEORGE CLARKE
BRAND AMBASSADOR FOR
TRUEDOR COMPOSITE DOORS

YOUR BACK DOOR CAN LOOK AS GOOD AS THE FRONT.

Back doors do not have to be simple styles, they can be as interesting as those you choose to install on the front; the range of styles is as complementary to the back of a home as it is to the front - who said you cannot have a feature door on the rear of the home?

It's time to move on – let's explore the benefits of a composite door as a product suitable for the rear of the home with the same enthusiasm as we have always done as a product suitable for the front.

Let's bring back doors to the front of our thinking.

CHOOSE ANY DOOR FROM THE TRUEDOR RANGE AS YOUR BACK DOOR

GEORGE CLARKE

HARDWARE & ACCESSORIES

TRULY BEAUTIFUL HARDWARE

We feature fully suited hardware as standard. Our 2 Star high security door handle is an attractive looking product, which offers an ergonomic design with no compromise on grip length. The handle has been designed to protect the cylinder from attack and provides a visible and obvious deterrent to potential intruders.

The letterplate has been designed very much with aesthetics in mind with its simple but elegant styling, designed to complement any door and suited finishes with other door furniture. The construction is unique with pressed metal flaps that shroud the surround from view.

The door knockers, numerals, eyeviewer and lettering have been sensitively designed to complement the features of any external door face. Manufactured from 304 stainless steel (with the exception of the eyeviewer which is brass), the products offer ultimate corrosion resistance for ultimate performance.

GUARANTEES - PEACE OF MIND GUARANTEED

Once fitted, the doorset is guaranteed for up to ten years, depending on the finish and paint selected.

PROTECT YOUR HOME WITH A HIGH SECURITY TRUEDOR COMPOSITE DOOR

ALL TRUEDORS ARE FITTED WITH THE FOLLOWING AS STANDARD:

- HIGH SECURITY, STAINLESS STEEL MULTI POINT LOCKING SYSTEM
- 2 SETS OF TRIPLE HINGE BOLTS EXCLUSIVE TO TRUEDOR
- TOUGHENED SAFETY GLASS TO BS EN 12600
- 2 STAR HANDLE AND 1 STAR CYLINDER GIVING 3 STAR SECURITY
- STEEL REINFORCED FRAME
- OPTIONAL SPLIT SPINDLE

TRULY SECURE COMPOSITE DOORS

Our composite doors are fitted with high security multipoint locking systems as standard. These locks meet the requirements of PAS 23/24 and are tested in accordance with BS EN ISO 1303 Building Hardware – Cylinders for Locks.

TRIPLE HINGE-BOLTS To take the security of our composite doors to an even higher level, we also supply our specially designed dog bolt system as standard. This involves two sets of triple hinge-bolts that secure the composite door to the frame, protecting you against intruders. Designed to complement our existing high security multipoint lock.

NEW ANTI SNAP, BUMP, DRILL & PICK... YOUR CHOICE!

Secured by Design approved UAP Kinetica Kitemarked high security 3 Star Cylinder, now available across the Truedor range. The cylinder is designed and tested to ensure that if it is attacked from the outside it can still be opened from inside, ensuring that the door will continue to be secure and safe to use and will function as normal for the homeowner.

BE TRULY SECURE WITH TRUEDOR

3 STAR SECURITY

The stylish TS007 high performance door handle is manufactured in 304 stainless steel, giving ultimate corrosion resistance and comes with a 25 year anti-corrosion guarantee on all finishes and 10 year mechanical guarantee. Meets the requirement of ADQ.

SPECIAL FEATURES SUMMARY

- MANUFACTURED IN 304 STAINLESS STEEL GIVING ULTIMATE CORROSION RESISTANCE
- SUPERIOR QUALITY AND DESIGN FOR PRODUCT LONGEVITY
- TS007 ACCREDITED ALLOWING A 1 STAR CYLINDER TO BE FITTED AND STILL ACHIEVE THE REQUIREMENT OF DOCUMENT Q
- INCORPORATES PATENTED SPRING CASSETTE WHICH ELIMINATES 'DROOPING HANDLE' EFFECT
- AVAILABLE IN A FULL CHOICE OF FINISHES INCLUDING GOLD, CHROME, BRUSHED STAINLESS, WHITE AND BLACK
- GUARANTEE** 25 YEAR ANTI-CORROSION AVAILABLE ON ALL FINISHES
- GUARANTEE** 10 YEAR MECHANICAL

ENSURE YOU'RE SECURE WITH COMPOSITE DOORS

We supply a 'split spindle' option with every door which further enhances security. The composite door then locks on the latch as soon as the door is shut and requires a key to unlock it from the outside. We can also offer other composite door furniture as an alternative if required.

SECURED BY DESIGN (SBD) IS THE UK POLICE FLAGSHIP INITIATIVE SUPPORTING THE PRINCIPLES OF DESIGNING OUT CRIME

Secured by Design is a crime prevention initiative operated by the Police Services of the United Kingdom, which aims to utilise design principles and products in the build environment that reduce the risk of crime by combining minimum standards of physical security and proven principles of natural surveillance and defensible space. Independent research has shown that these principles can lead to a reduction in crime of up to 75%.

SECURED BY DESIGN LICENSED PRODUCTS

Essential to the SBD scheme are Licensed Products which are successfully tested to meet the relevant Police Preferred Specifications.
